WE SHAPE YOUR CABLE

A legend left us, but we continue his life's work. The legacy of Markus Katzengruber "Katz" lives on and we continue to grow it. From day one, since PMC was founded, the team has shared a common history with Shape Obstacles. Together with Aljosa (the owner and brain behind Positive Boards) we construct and build high-quality wakeboard features in any kind of form. Wakeboarding is not just a sport for us—it is our passion. We take our customers seriously and their feedback enables us to improve the products.

What sets us apart

Our goal is to create innovative and high-quality wakeboard features in any kind of shape! Our experience in the industry in combination with the passion for wakeboarding gives us the opportunity to plan and build wakeboard obstacles for all sorts of cableparks.

High-Quality

We use high-quality welding processes according to general guidelines. Every part has 100% quality control according to our high quality standards.

Smoothness

We work without screws and with high-quality HDPE. This makes an ideal surface, while the opening design on the bottom of a feature provides natural water cooling.

Geometries

Our team has many years of experiences, while continuous feedback from our Pro Riders allows us to develop and adapt our products on a continuing basis.

Experience

With over 13 years of experience in the industry, we strive to provide high quality features for cableparks worldwide. Our products are “made by riders for riders”.

Guarantee

All of our products come with a 5-year worldwide guarantee. Should any complaints arise, we will do everything to find a prompt solution.

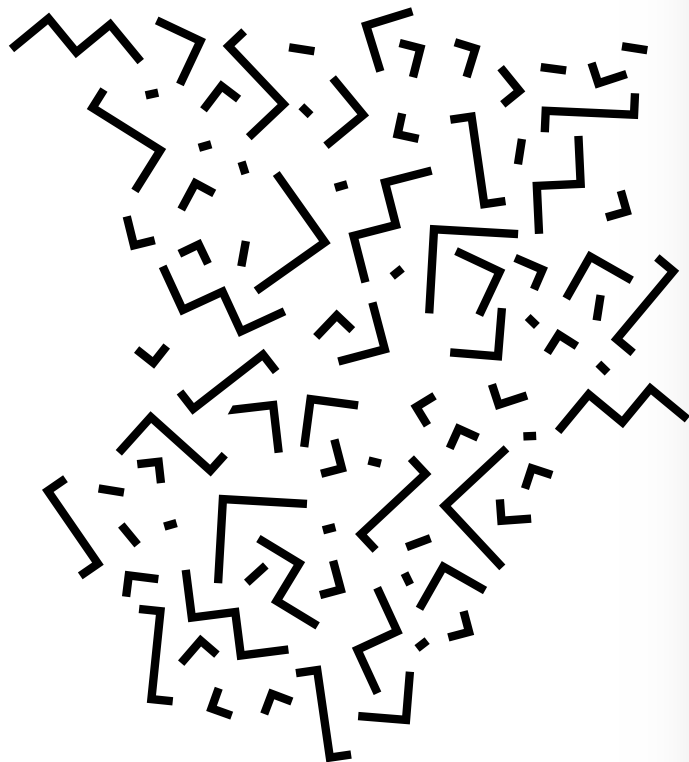

Shipping

Since 2011, we have delivered over 600 handmade features worldwide. Our deliveries are made on time and provide accurate tracking. No location is too far for us.

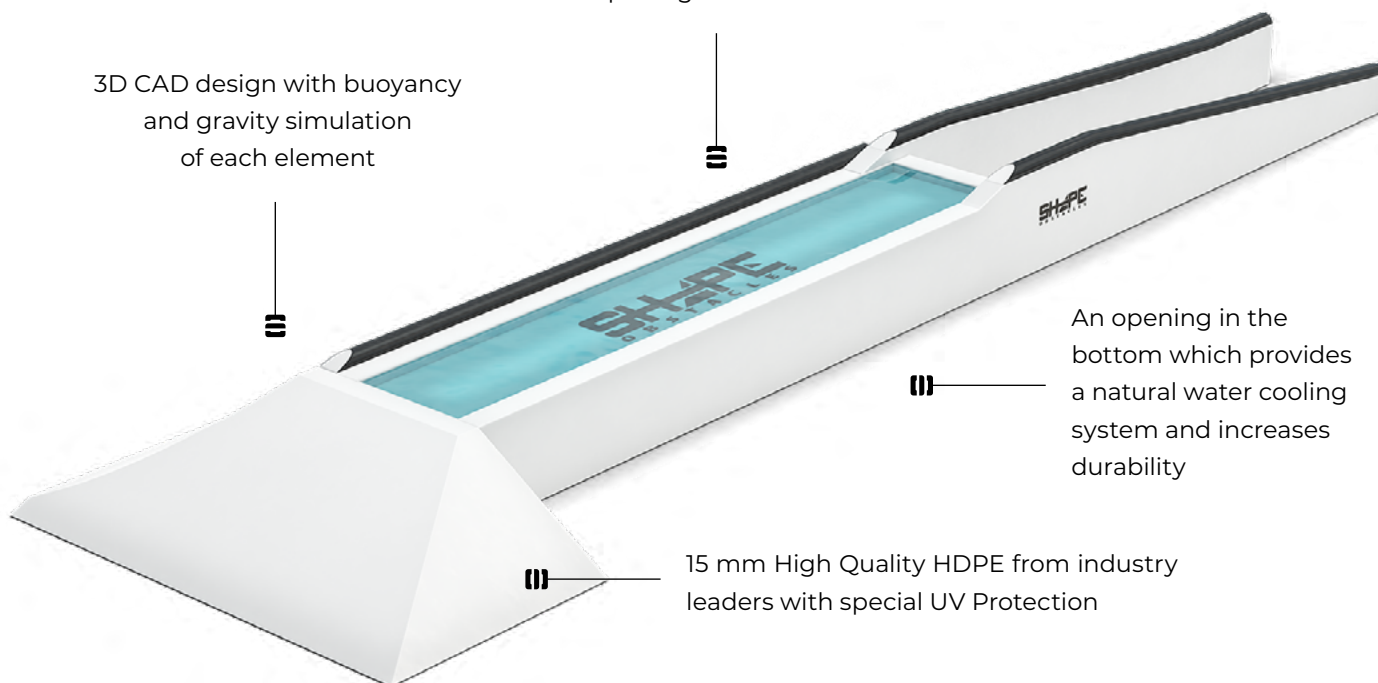

Highest quality characterises our products

Easy to hack due to the design of the modules and the mounting openings on the side

3D CAD design with buoyancy and gravity simulation of each element

An opening in the bottom which provides a natural water cooling system and increases durability

15 mm High Quality HDPE from industry leaders with special UV Protection

Sustainability

Our path forward is clear: to continue having fun in water, we must focus on positively impacting our people, planet and sport. Hence, we minimise transport routes and waste while recycling our HDPE leftovers.

We provide a wide range of services

Our service starts with an in-depth consultation, since features are vital elements of every cablepark. We show you the options for designing your obstacle setup in a modular and variable manner and help you design a target group-specific obstacle layout.

PLANNING

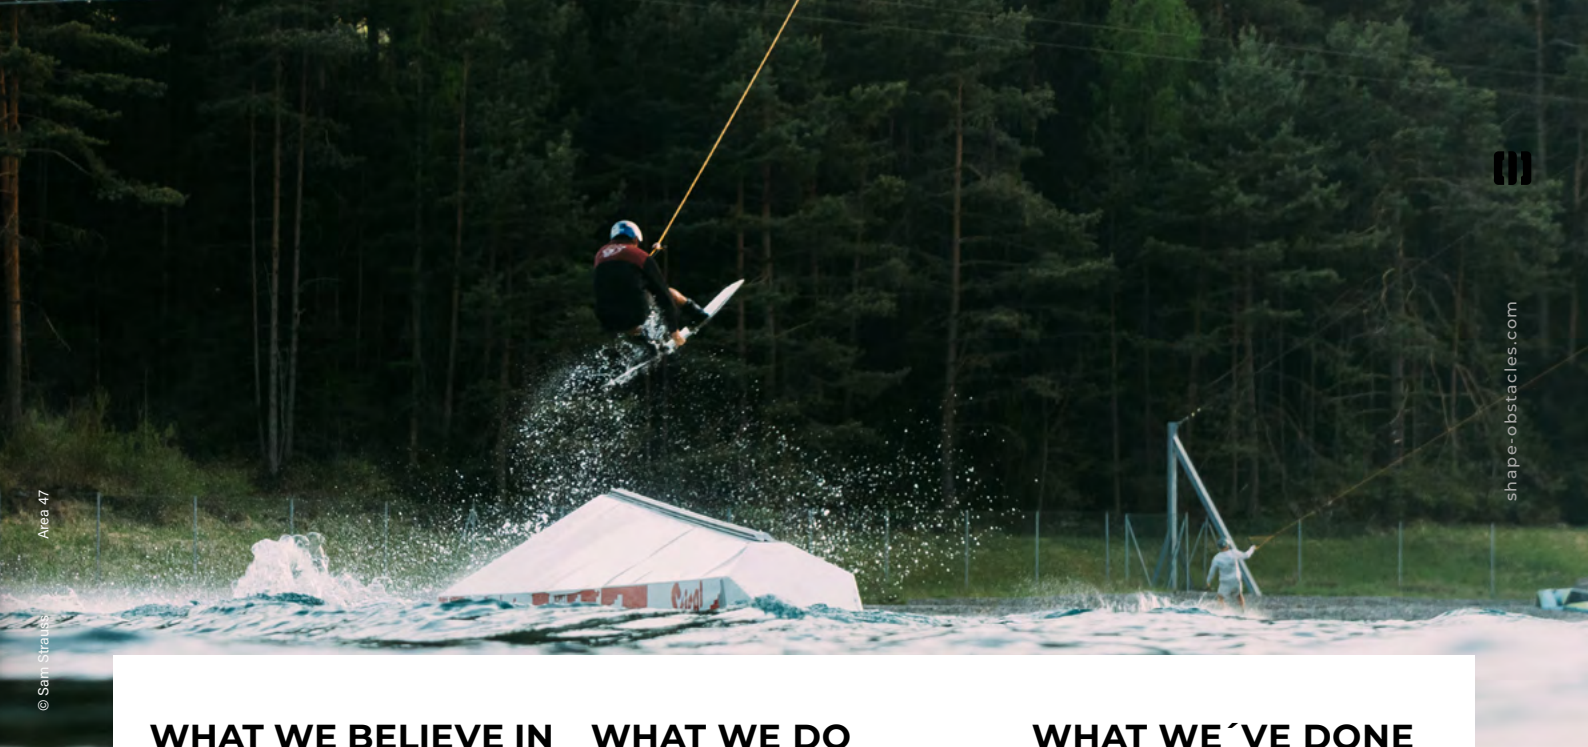

Whether a full-size cable or a 2.0 system - we will find the right product for you. Each obstacle is created as a 3D model and is also thoroughly checked by our team and team riders. We also help you with anchor planning.

ADVERTISING

All elements can be covered with advertisements or made with recesses using the CNC milling machine, in which foiled aluminium plates can be inserted. We can create the right graphic for you in-house.

WHAT WE BELIEVE IN

We are focused on producing durable products that also offer a lot of variety. or a creative sport like wakeboarding, it is vital that parks do not stay static, but rather remain in a state of constant flux. That is the path to increased acceptance, new participants and enhanced growth.

WHAT WE DO

Our goal is to create the best features for our customers. We have many years of experiences in the sport and translate the expertise and know-how into the shape of our features. Through continuous feedback from our pro rider team, we further develop and adapt our products.

WHAT WE´VE DONE

We have sold over 600 obstacles throughout the world since 2011. Many well-known cable owners count on our skills and are satisfied customers. We put our customers' priorities first and infuse the spirit of innovation, progress and sustainability into everything we do.

CONTENT PRODUCTION

As an addional service we can support you with the production of professional content comprising our Pro Riders, photographers and filmmakers. We take care of the organisation and create sustainable added value for your cablepark.

MARKETING

Almost everyone these days has a personal social media profile. That is why we promote each project on our channels and platforms, such as the Handle Magazine, Cable Mekka and Insidewake, in a manner suited to the target audience.

Sven Bückler is the owner of Wake & Groove Geisenfeld. He is celebrating the 10-year anniversary of its cablepark. To mark the occasion, the park has been expanded with its biggest feature to date.

The first important milestone was set in 2023 - the Joe Battleday Signature.

Hi Sven, why did you decide on the Joe Battleday Feature?

We've been thinking about adding a pool feature to the lake for a long time. It's always been in the back of my mind, and when SHAPE added the Joe Battleday Feature to their lineup, it was exactly what I'd been looking for. I like that it's not a standard pool. Being 1.9 meters wide, it's considerably narrower, making rail-to-rail tricks possible. The pool has been a real hit and is currently the best feature in our park!

How did the process work from a project management perspective?

Everything went well – I felt like I was in good hands. There was a clear plan. After placing the order, I received an overview of the process and the coming steps. Everything was on schedule: down payments, delivery, installation, media plan as well as photo and video shooting. I placed my order in October 2022 and then everything moved quickly, so that now, right on time for warm weather in Germany, we've got our new centerpiece in the lake.

What is it that you like about SHAPE?

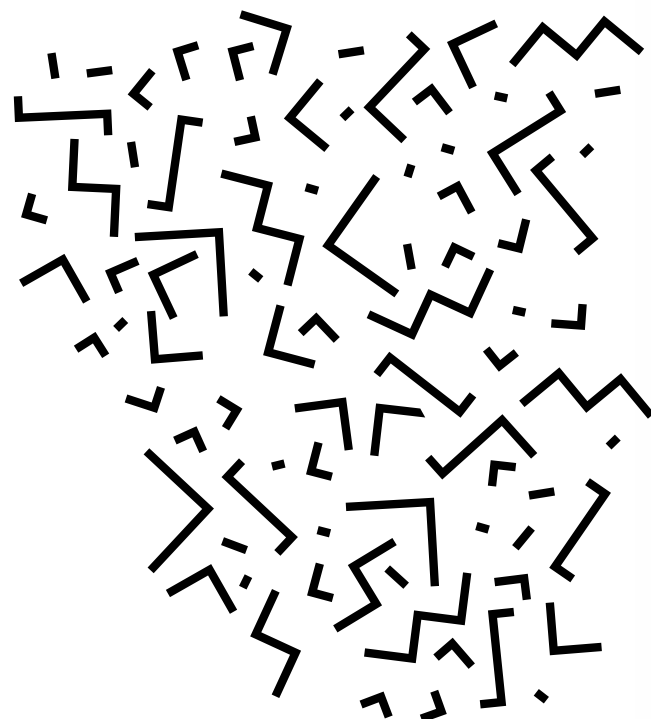

No question, the quality. But also the uniqueness. I'm very happy to have found yet another obstacle that isn't completely conventional. Six years ago, it was the Dom Hernler feature that was a rarity and something unusual – today it's the same thing with the Joe Battleday Pool.

What was it like to have such a big crew onsite?

Everything clicked perfectly. Once the feature was positioned in the lake and the weather finally started to play along, the guys and gals rolled in. In the morning and evening we had perfect conditions for photos and video – that was our well-deserved reward after a lot of hard work. It was totally relaxed and I felt incredibly comfortable. Those are the things that you remember – it was like back then with Markus Katzengruber. I think that he's looking down at us from above and seeing that his life's work is being continued.

Shape Obstacles

TEAM SERIES

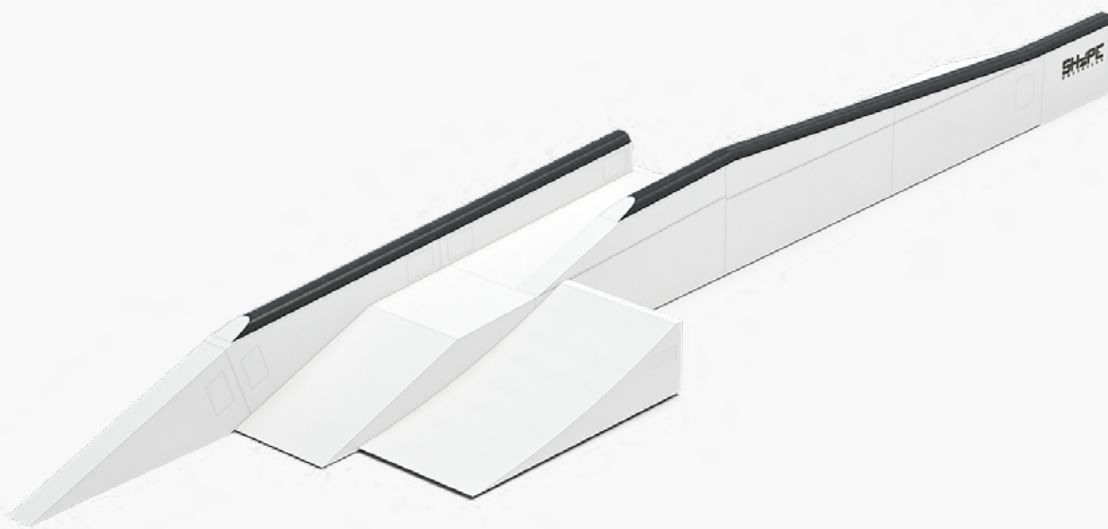

Team Series

Dominik Hernler

With my first signature obstacle I wanted to bring easy rail to rail transfer to wakeparks around the world. The kicker on the side and the bank next to the downrail offer a lot of different ways to hit it. Everyone can have fun on this thing!

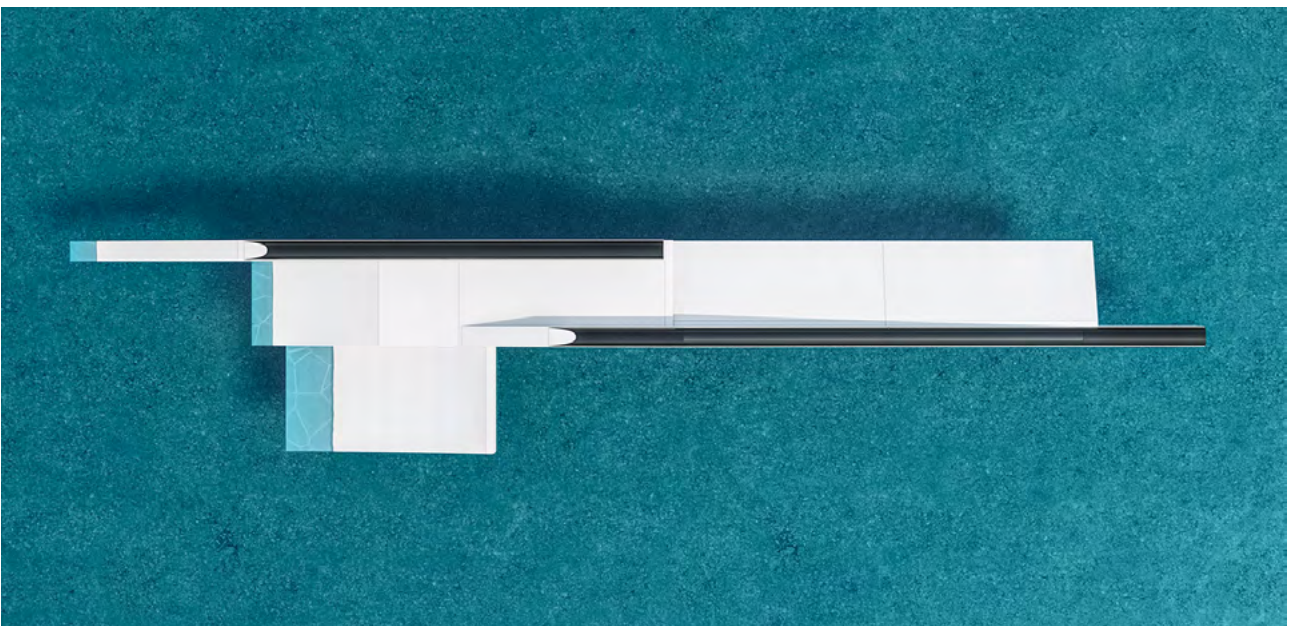

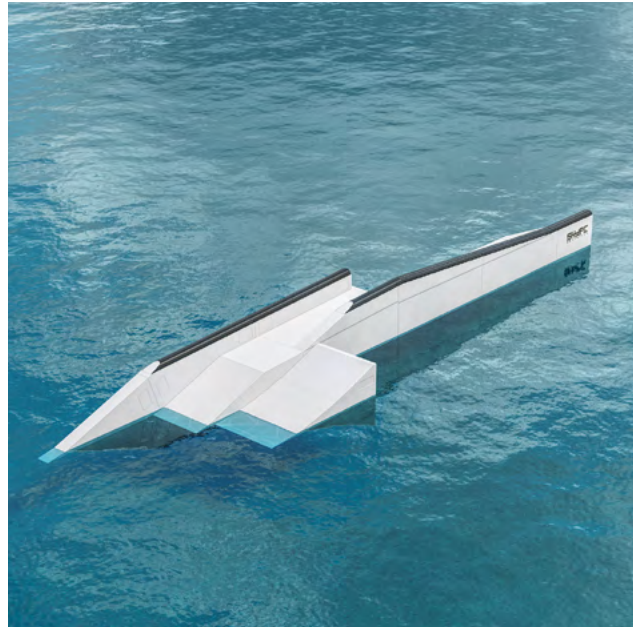

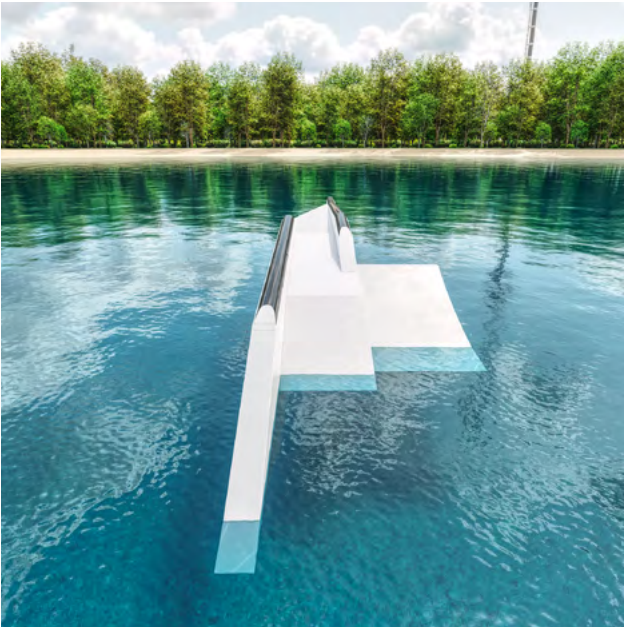

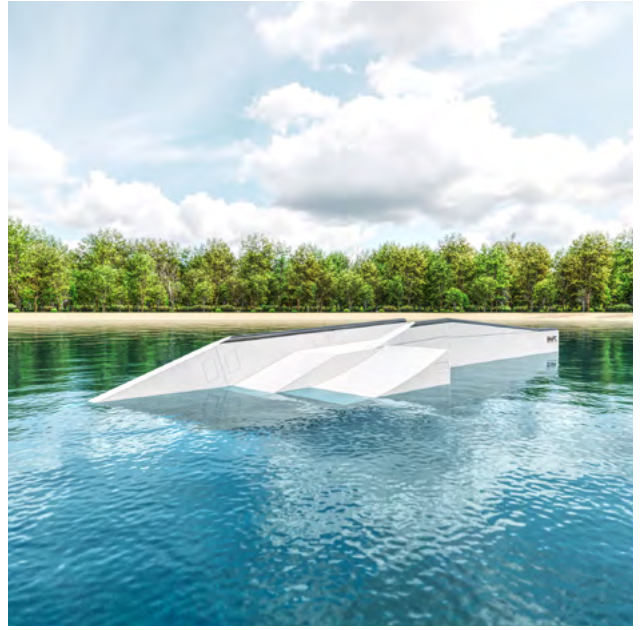

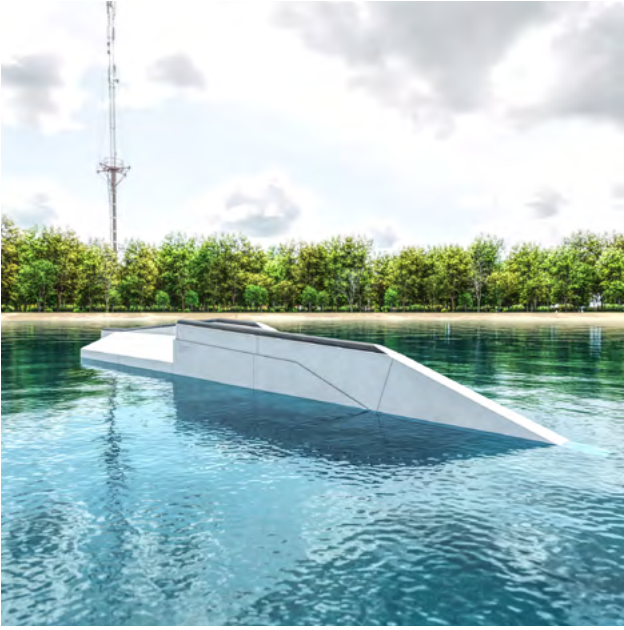

Item no. 12-416-V4

L×W×H: 2,120 × 400 × 180 cm

2,600 kg

Complete setup: **EUR 42,000,-**

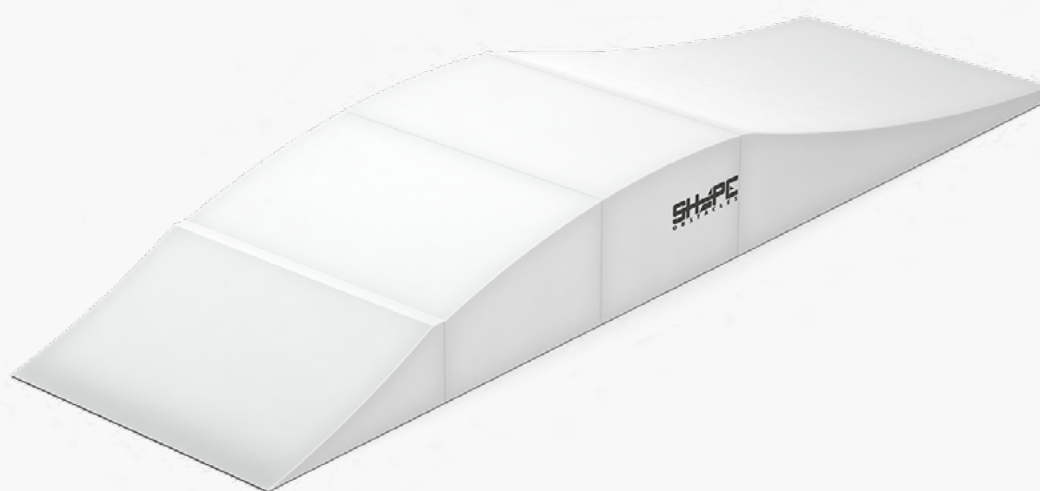

Team Series

Doms Tank

Riding the mega ramps at lake ronix and events like "Red Bull Rising High" really made me want to design one myself. I'm more than stoked that Shape Obstacles gave me the chance to do so. No more knee or back pain after hitting kickers to the flats all day. With this ramp you can boost of a kicker with a smooth landing every lap. From just riding over it to big sendy tricks - everyone can have a good time on it. It's designed for all riders amateurs to pros.

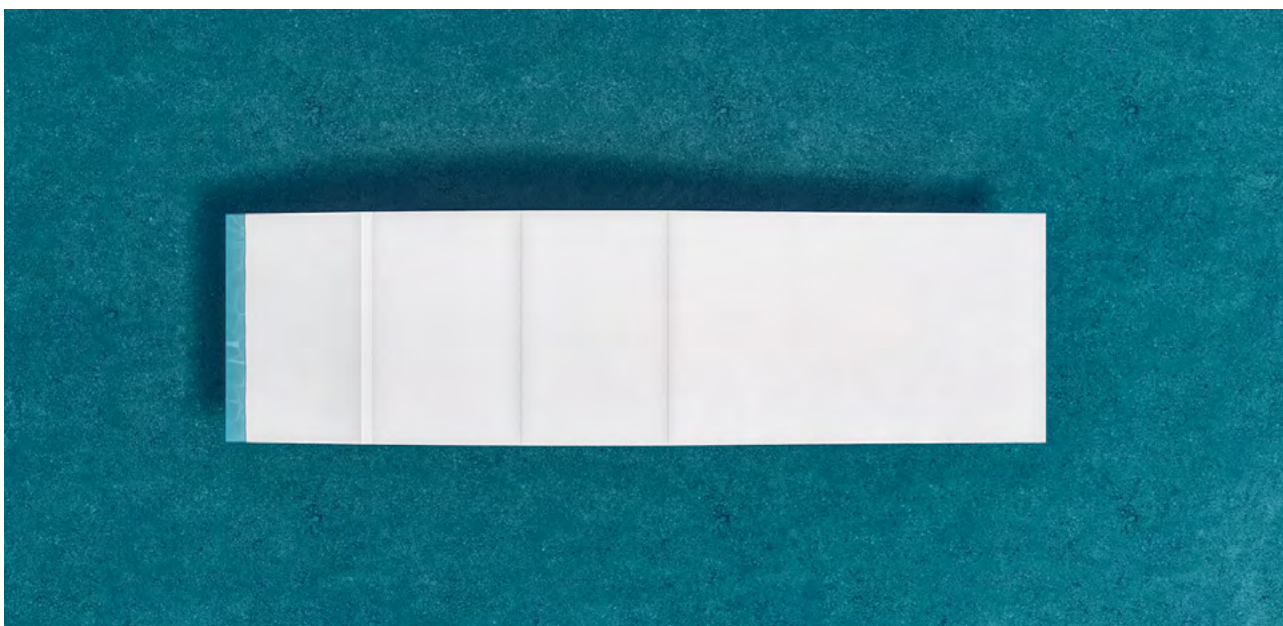

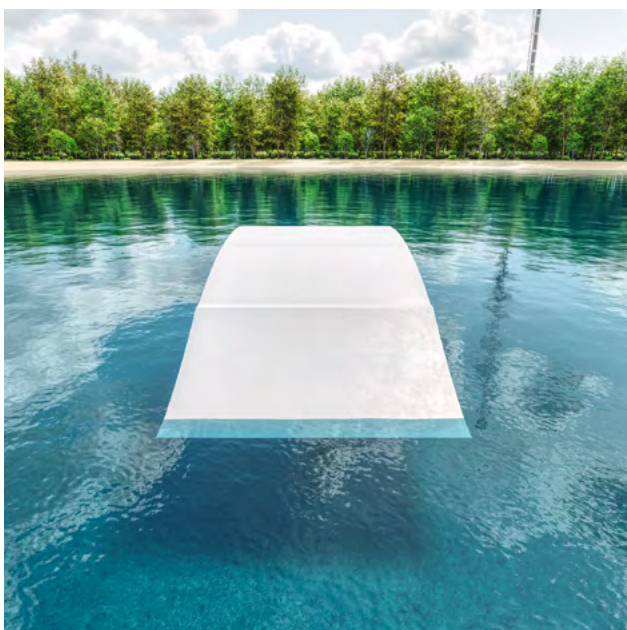

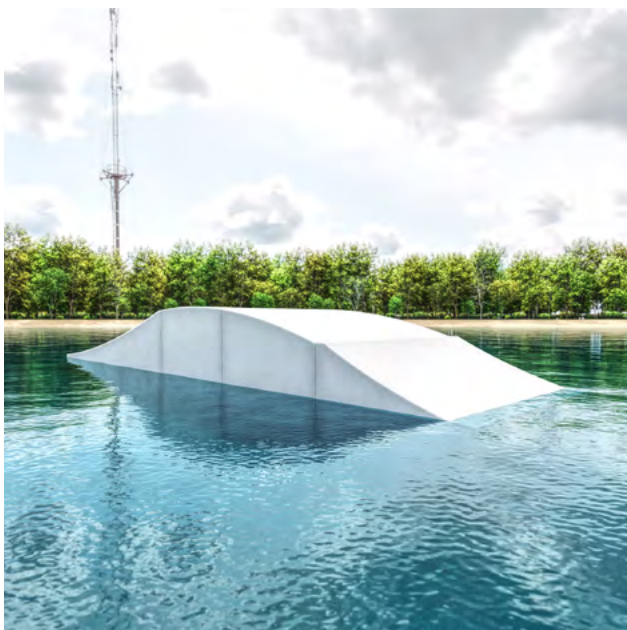

Item no. 12-416-V8

 L×W×H: 1,950 × 395 × 240 cm

 6,000 kg

Complete setup: **EUR 59,000,-**

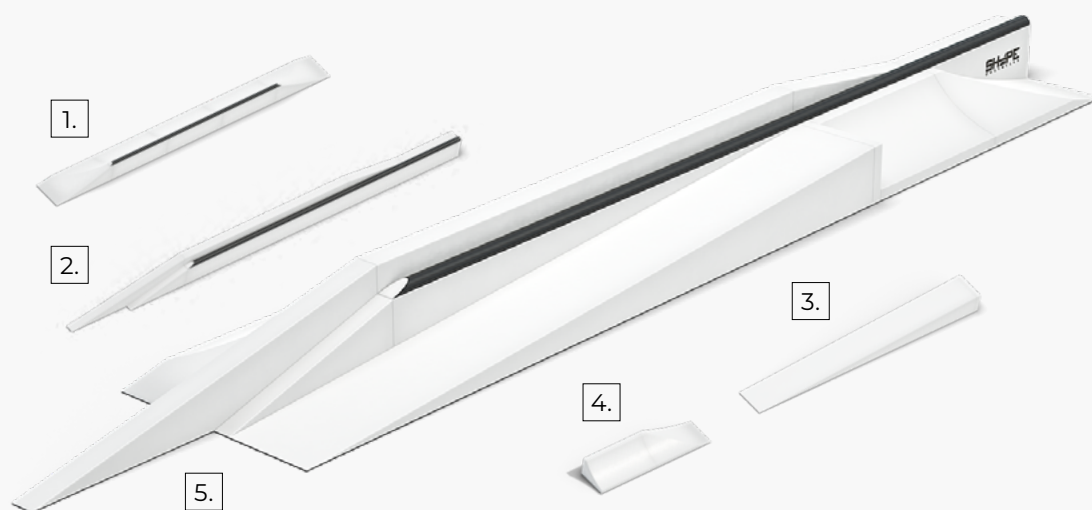

Team Series

Pedro Caldas

I tried to combine some of the aspects of obstacles I loved the most when I was a grom with the ones I love the most today. I believe a park should be able to change its setup through the season. This obstacle is not only thought to be hackable alone, but also with any other SHAPE obstacle.

Item no. 12-421-V2

 L×W×H: 2,800 × 375 × 170 cm

 6,500 kg

5. Complete setup: **EUR 69,500,-**

1. Bank:
EUR 21,000.-

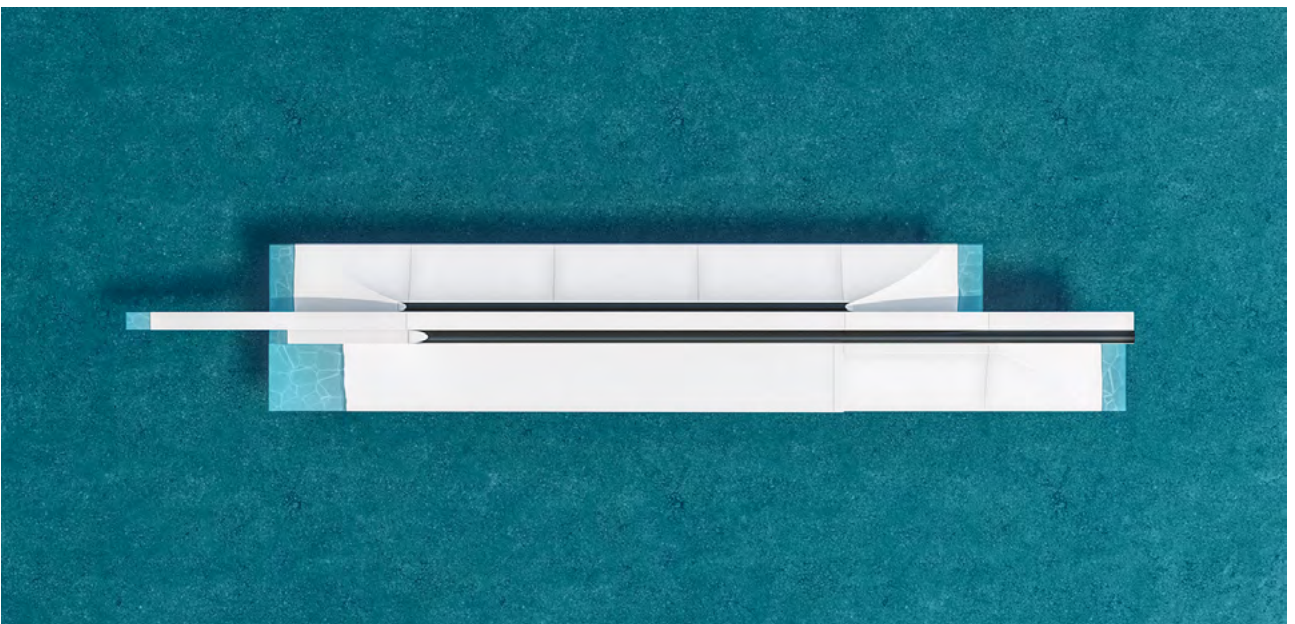

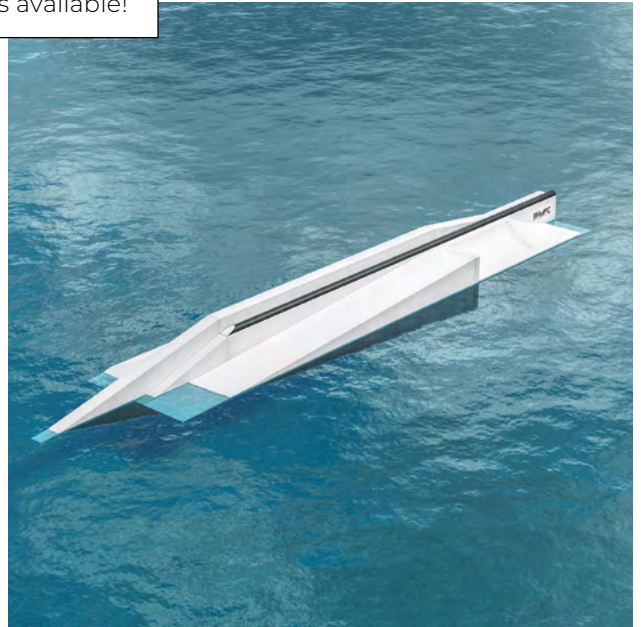

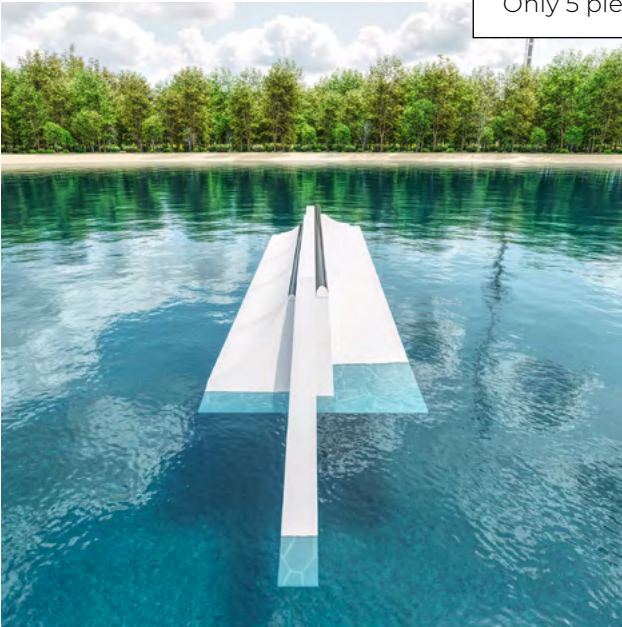

2. A-Frame + Creeper:
EUR 39,500.-

3. Up Box:
EUR 12,500.-

4. ProBank:
EUR 11,500.-

Only 5 pieces available!

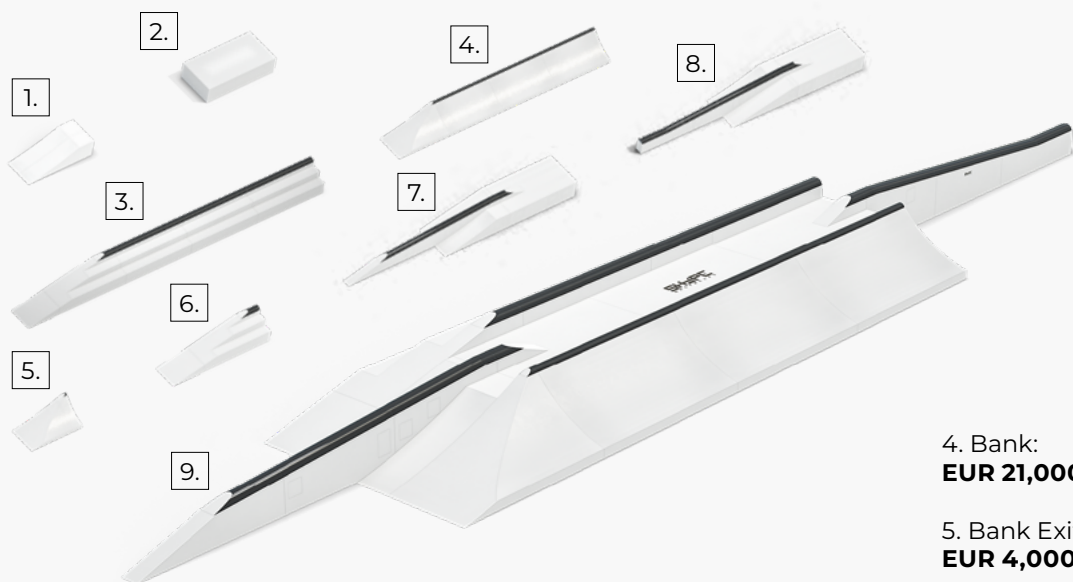

Team Series

Jules Charraud

I designed this rail with the idea that it could bring together as many existing bases as possible in today's wake, while providing the maximum possibility of hack and line combo, despite the large number of different parts. With a screwdriver and a 17mm spanner you can quickly create something new.

Item no. 12-418-V1

 L×W×H: 2,975 × 520 × 140 cm

 5,300 kg

9. Standard setup: **EUR 68,500,-**

1. Kicker:
EUR 3,500.-

2. Middle Box:
EUR 4,500.-

3. Stair Exit:
EUR 21,000.-

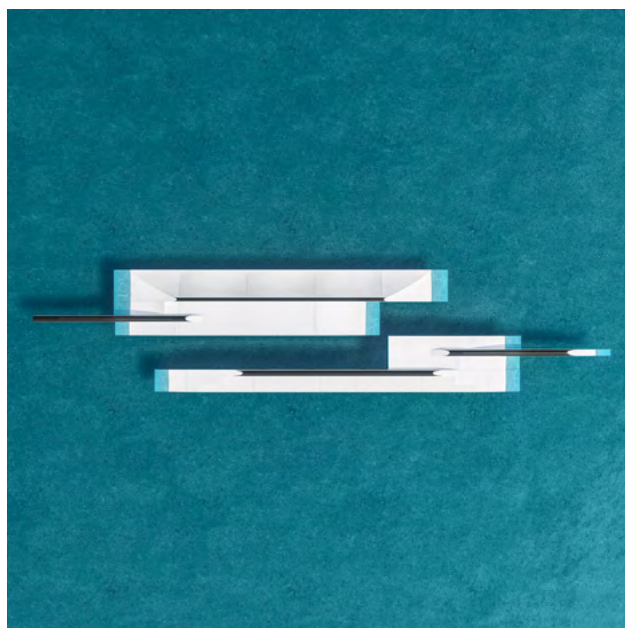

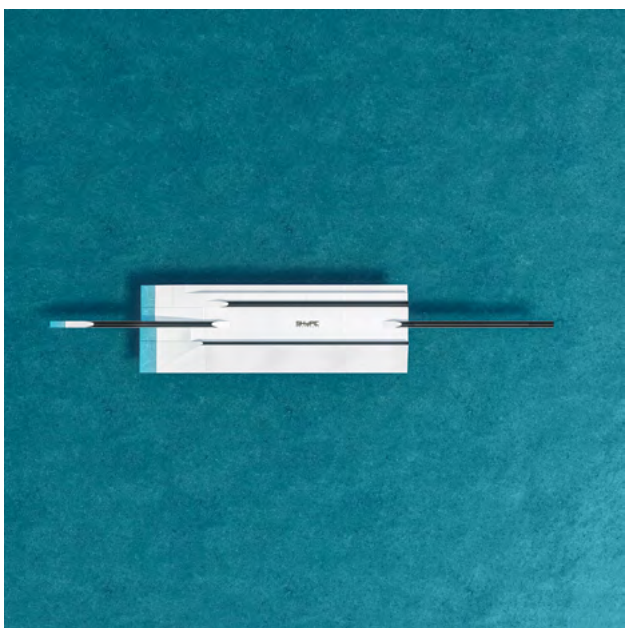

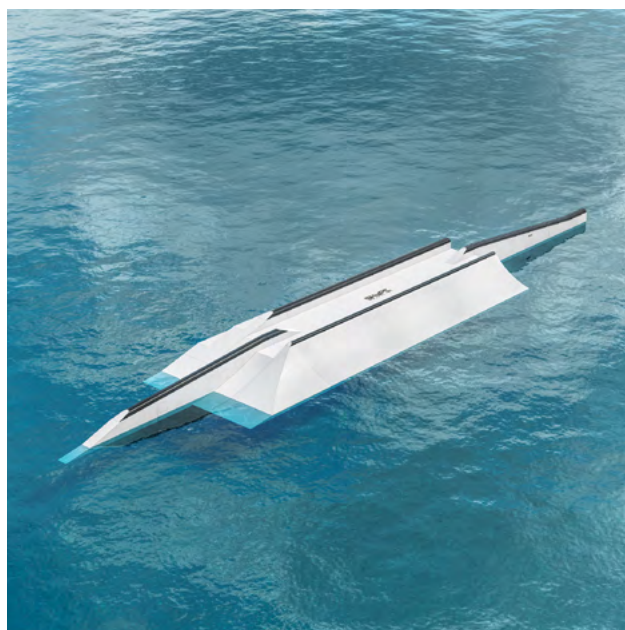

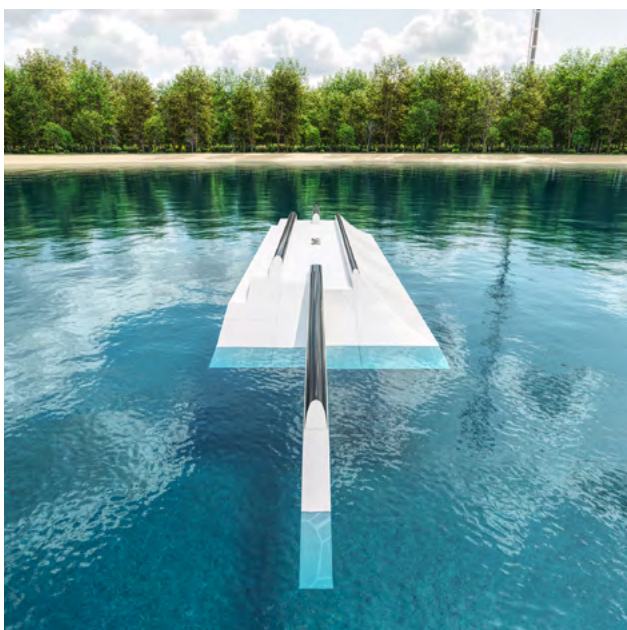

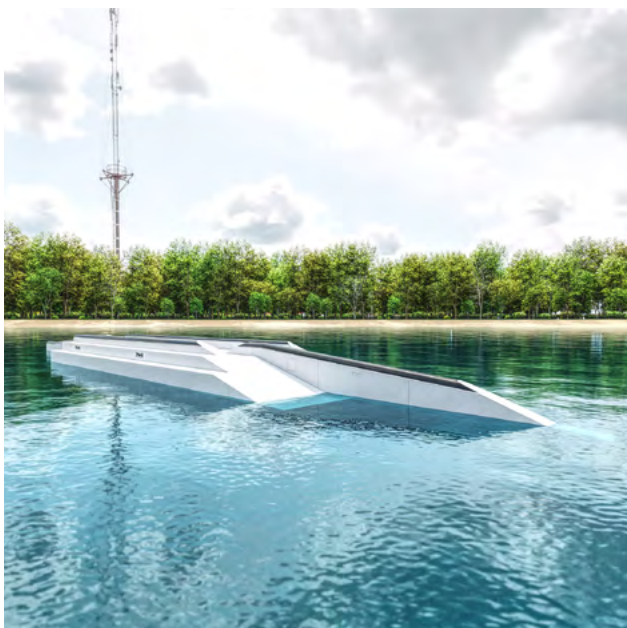

4. Bank:
EUR 21,000.-

5. Bank Exit:
EUR 4,000.-

6. Stairs Exit:
EUR 4,000.-

7. UpRail Box:
EUR 12,500.-

8. DownRail Box:
EUR 12,500.-

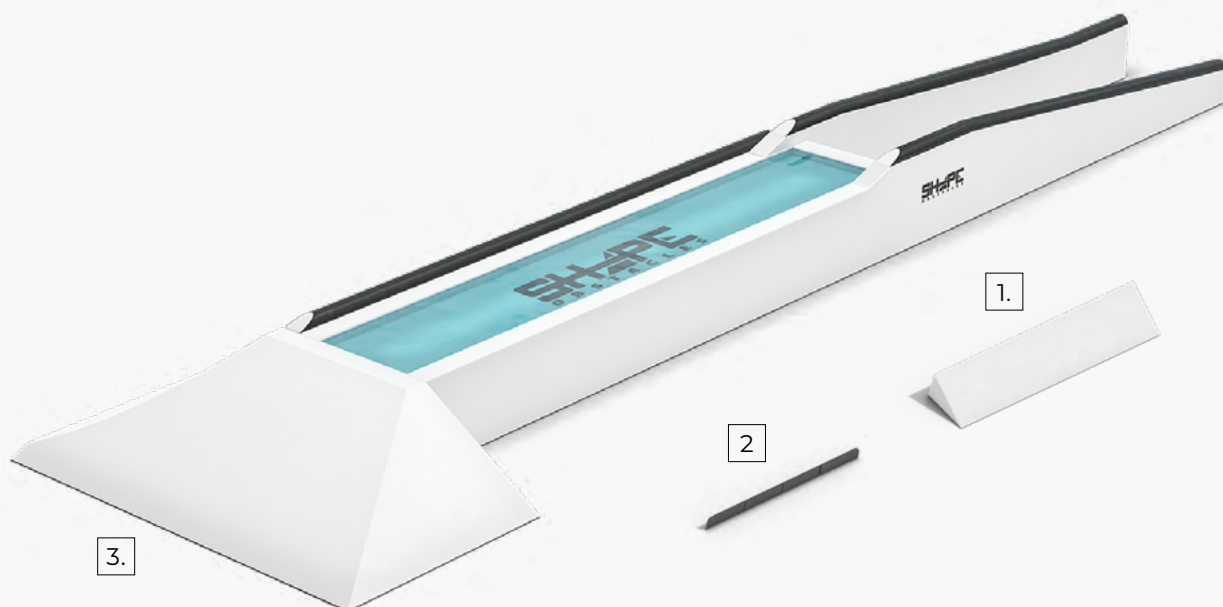

Team Series

Joe Battleday

This obstacle really brings together my favourite aspects of a rail, with the option of landing in transition, rail-to-rail lines out of pool, or just a simple full pull, it truly offers almost infinite lines for riders of all levels.

Item no. 12-420-V2

 L×W×H: 2,670 × 610 × 200 cm

 11,400 kg

3. Standard setup: **EUR 72,500,-**

1. Addon Bank:
EUR 21,000.-

2. Addon Handrail:
EUR 7,500.-

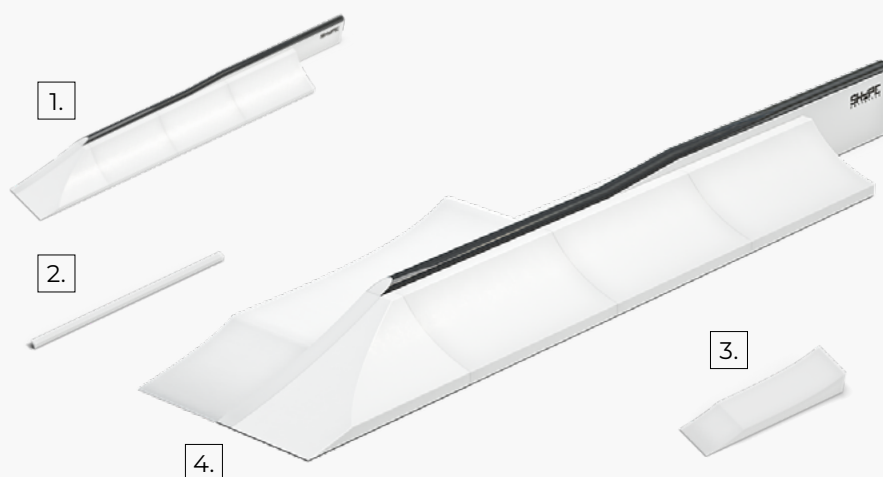

Team Series

Elena Bodi

I'm part of the new wakeboarding generation, having so much fun on long rails, but I also love the feeling of landing on banks. So I tried to create an obstacle that provides everything, It's unbelievable how many lines you can do on this one and I hope you enjoy it as much as I do!

Item no. 12-425-V1

L×W×H: 2,000 × 470 × 195 cm

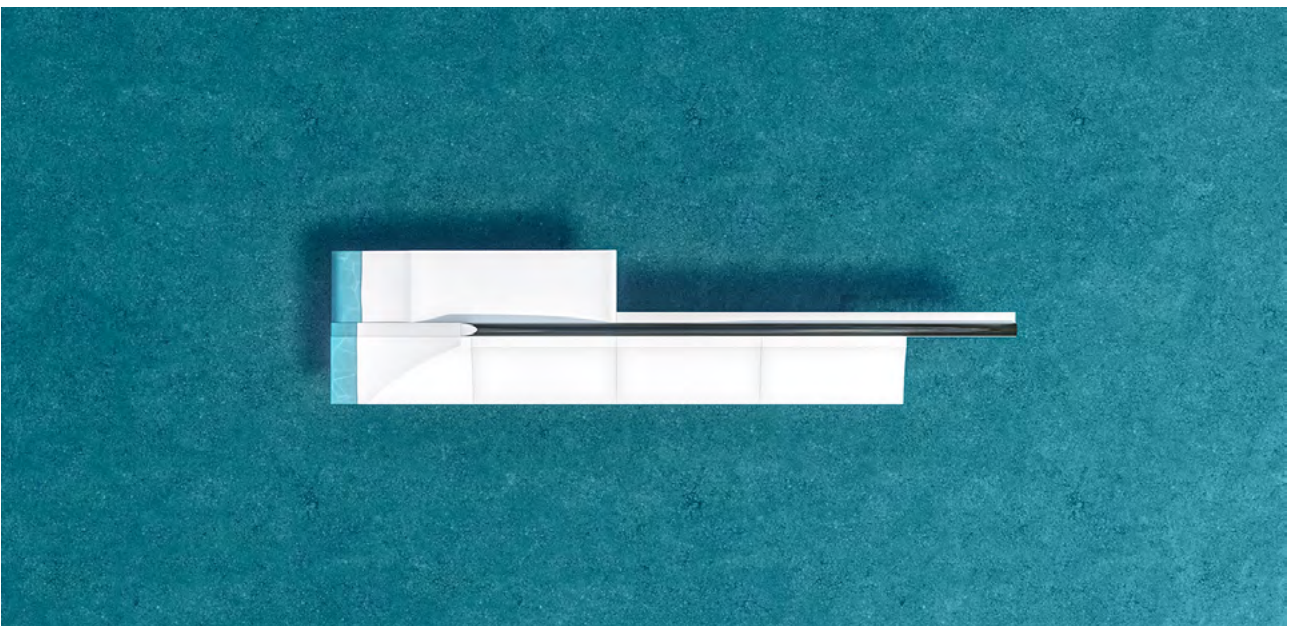

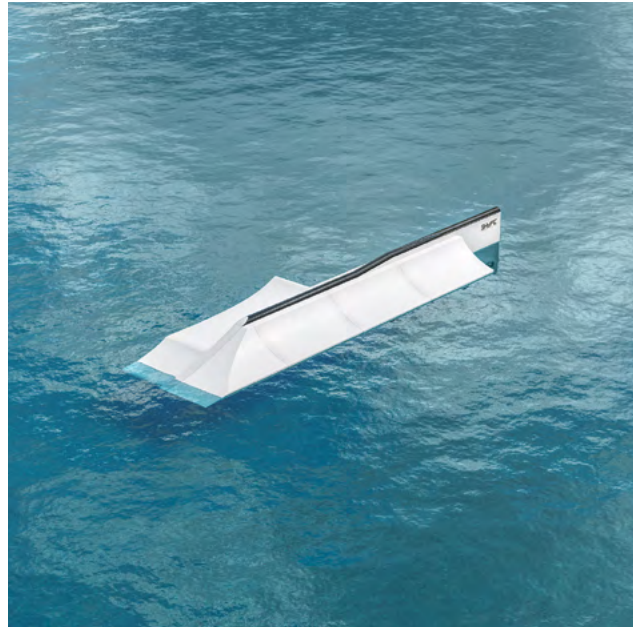

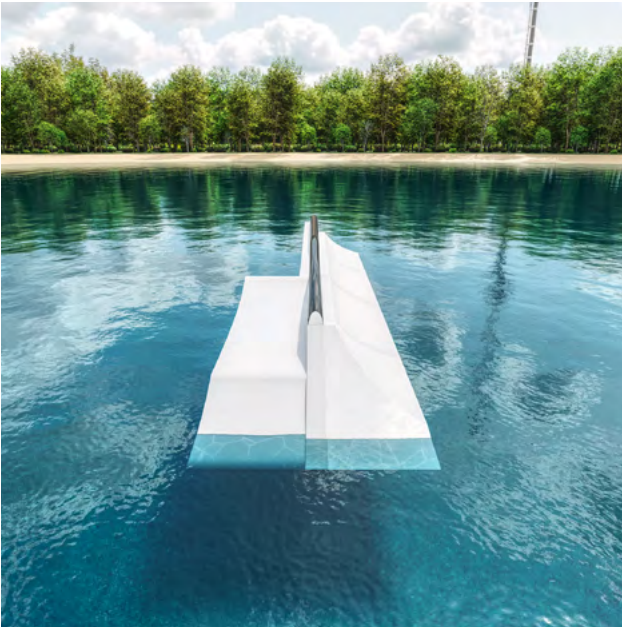

4,600 kg

4. Complete setup: **EUR 44,500,-**

1. Uprail Wall:
EUR 40,500.-

2. Creeper:
EUR 1,500.-

3. Kicker:
EUR 9,500.-

Team Series

Timo Kapl

In the past couple of years I really fell in love with simply getting a dialled in nose press on rails and landing in transitions. This feature will allow you to choose between loads of different combinations and ways of hacking it, making it accessible to everyone in the park.

Item no. 12-410-V4

 L×W×H: 2,385 × 310 × 130 cm

 4,700 kg

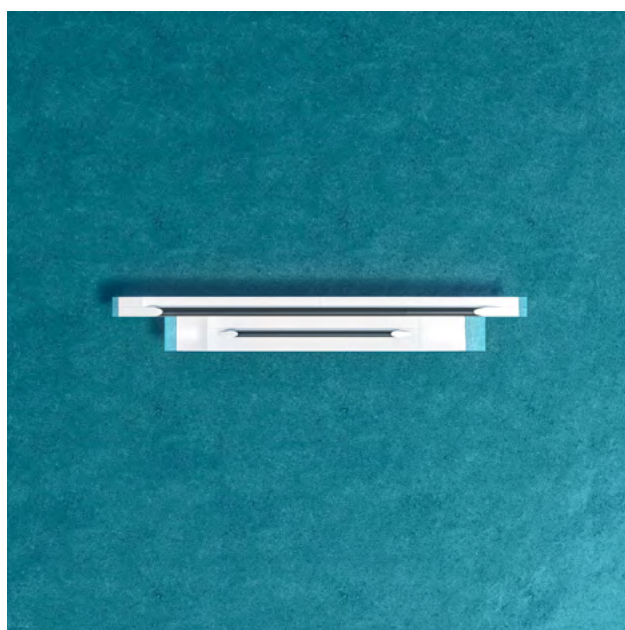

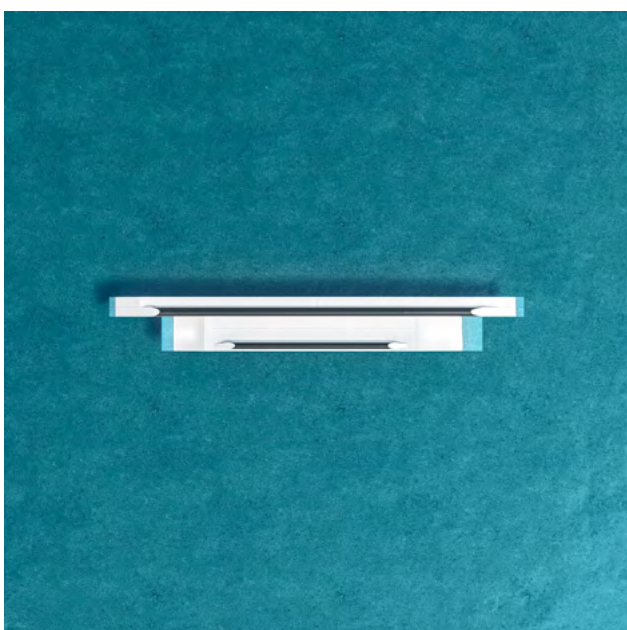

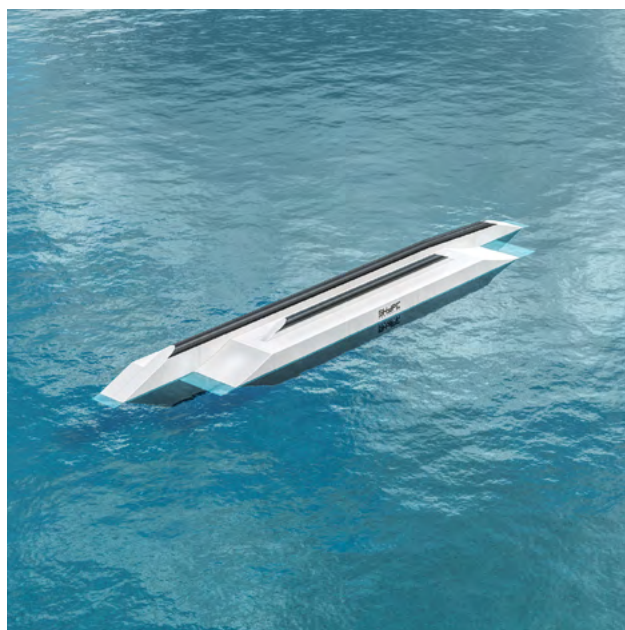

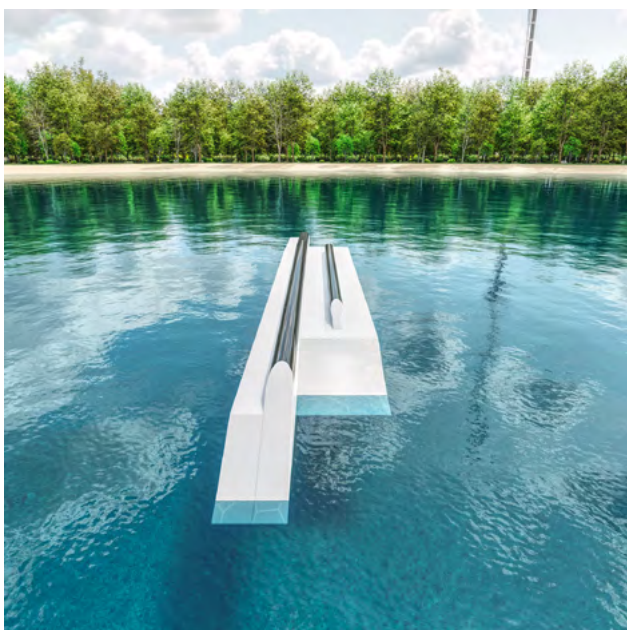

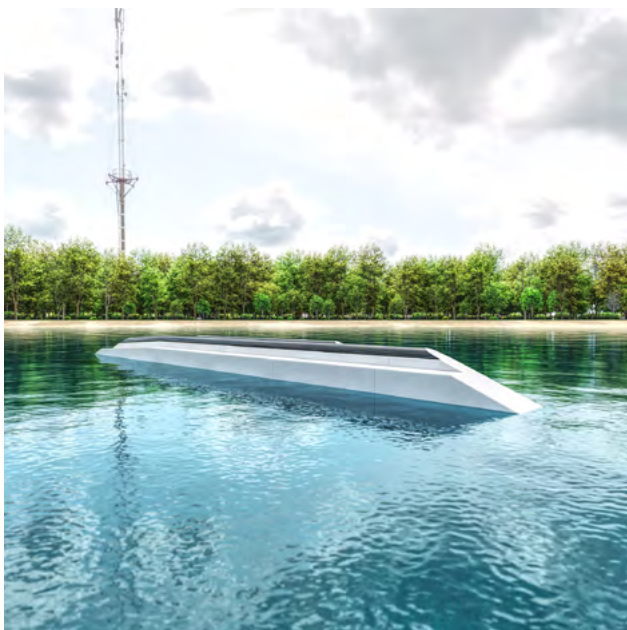

3. Complete setup: **EUR 36,500,-**

1. Part 1:

EUR 23,500.-

2. Part 2:

EUR 19,500.-

Team Series

Lisa Baloo

I really wanted to make an obstacle that is fun to hit every lap, making it possible to find a different line every time. My signature feature is designed for any level of riding and is suitable for any cablepark - 2.0 or the full size.

Item no. 12-428-V1

 L×W×H: 2,100 × 400 × 185 cm

 5,500 kg

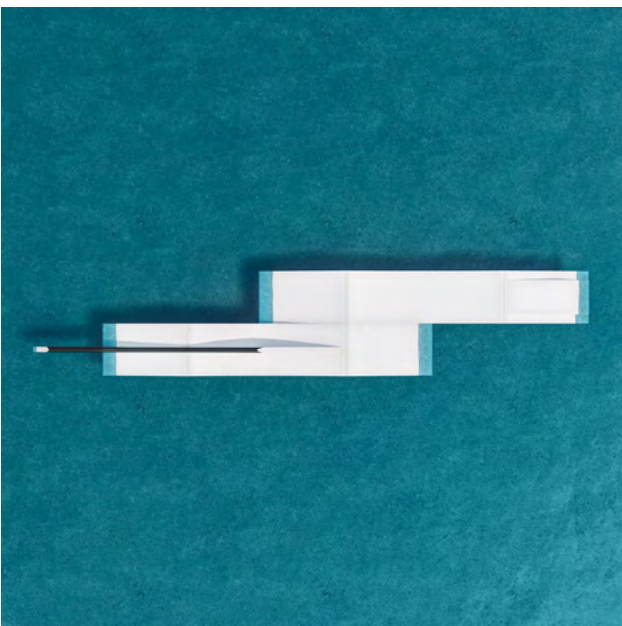

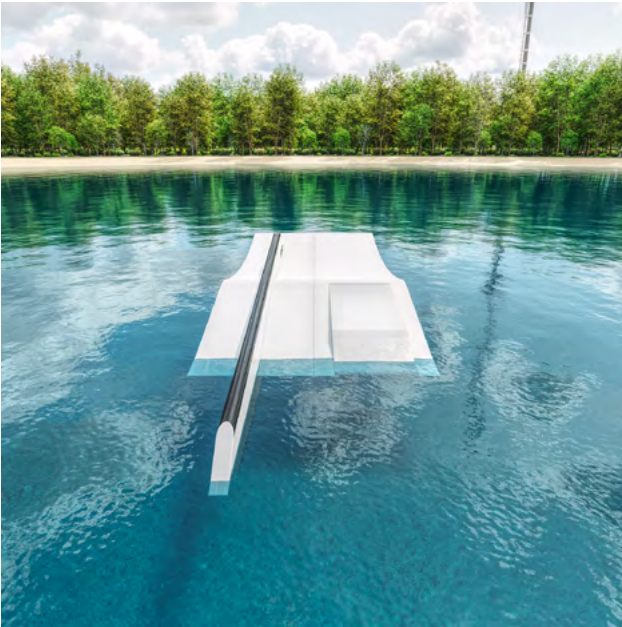

3. Complete setup: **EUR 49,500,-**

1. Part 1:

EUR 21,500.-

2. Part 2:

EUR 32,500.-

Team Series

Max van Helvoort

The thought process behind designing my feature was to have it available for intermediate, advanced and pro riders. It had to be designed so that it could be used for riding in both ways, hence both full size and 2.0 would work. It also adds hack possibilities and I did not want it to be too big.

My favourite features are rail-to-rails, banks and gaps, so I tried to design something that includes all those features for a good price.

Item no. 12-429-V1

 L×W×H: 1,600 × 400 × 165 cm

 4,500 kg

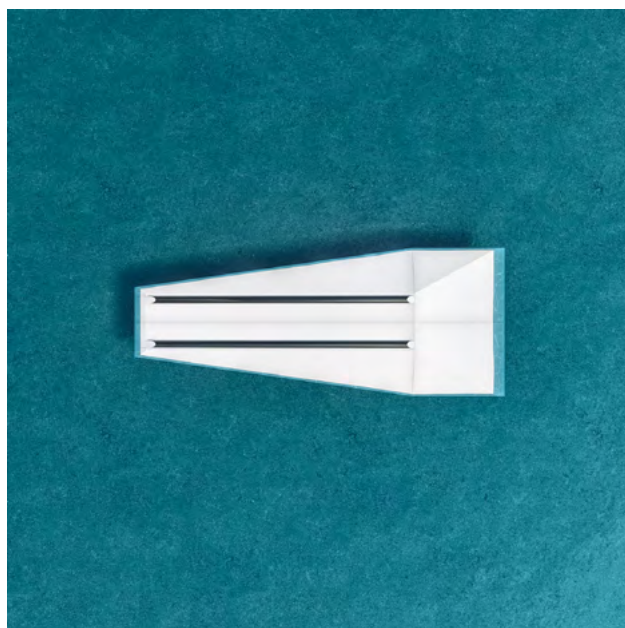

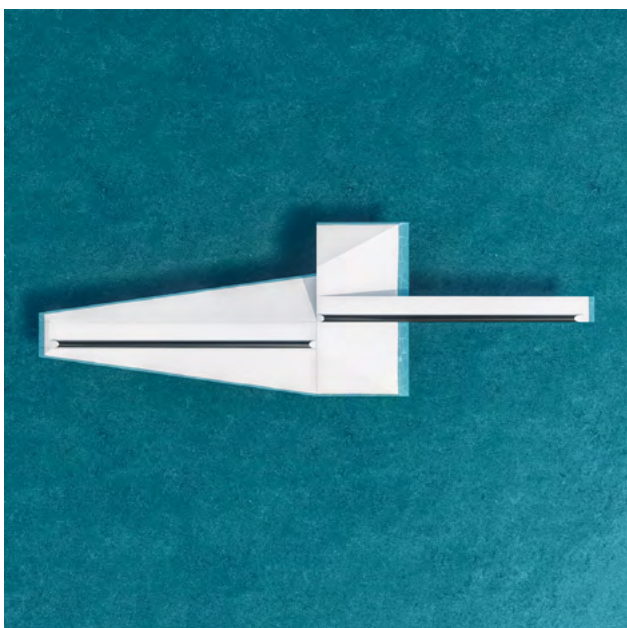

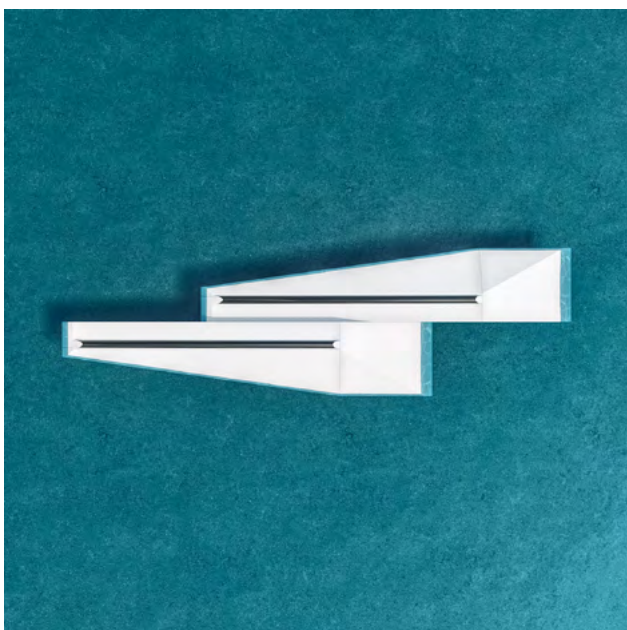

3. Complete setup: **EUR 44,500,-**

1. Part 1:

EUR 24,500.-

2. Part 2:

EUR 24,500.-

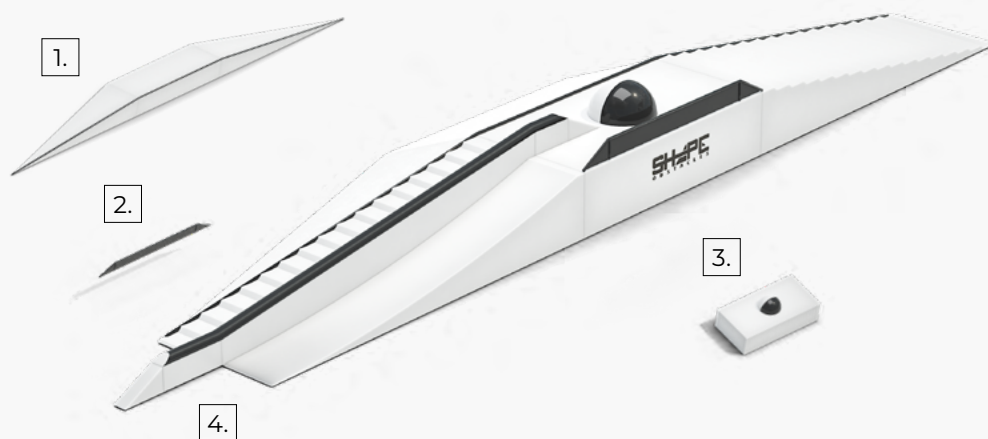

Team Series

Spanish Mafia

In wakeboarding, there is no better feeling than landing into a transition, which is why we came up with this idea. If you know us, you know that we absolutely love to make noise and for us landing into stairs feels crazy good.

Taps are also part of our riding and that's why we incorporated the buoy. From beginners to pros, every can have fun on it. See you in water!

Item no. 12-427-V1

 L×W×H: 2,000 × 400 × 150 cm

 5,100 kg

4. Complete setup: **EUR 49,500,-**

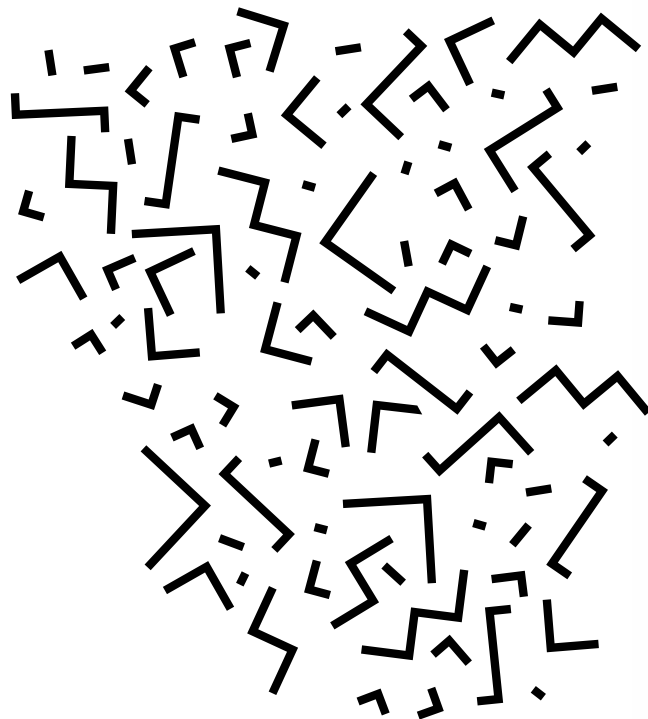

1. SteelRail Wall:
EUR 14,500.-

2. Handrail:
EUR 5,900.-

3. Addon Ball:
EUR 3,500.-

Our partnership with PMC

Ready to sell your used feature or rent a brand new one? Thanks to our partnership with PMC, that is exactly what we can offer you. The basic principle of this platform is to bring more features into circulation.

Sustainability and quality are top priorities at PMC: that is why this collaboration was a logical choice. The inventory of features used is being continuously updated. Choose your favorite and send a non-binding inquiry with the name of the cable park and the exact address. Our data will be treated as confidential. Buy sustainably – for the sake of the environment.
